

# Steel & Metallurgy Industry Gearboxes

HEAVY DUTY GEAR UNITS  
FOR STEEL & METALLURGY  
INDUSTRY

WIKOV.COM

01

## MATERIAL HANDLING

- Customized and WinGear® gearboxes for belt conveyor drives
- Special helical gearboxes for heavy duty cranes

02

## HORIZONTAL MILLS & ROTARY KILNS

- ZTE Series gearboxes for ball mill & rotary kiln drives
- Planetary gear units for central mill drives
- New improved design without external lubrication unit

03

## ROLLING MILLS

- For cold and hot rolling mills
- For new lines and replacement projects
- Up to 130 tonnes
- Horizontal helical and vertical bevel-helical gear units
- Pinions up to 2.8m diameter

04

## WIRE-DRAWING MACHINES

- Horizontal helical gear units
- Vertical bevel and bevel-helical gearboxes

Parallel gearbox for wire-drawing machine

ZTE Series gearbox for mills and rotary kilns

05

## COILERS & UNCOILERS

- Customized gearbox design
- Directly assembled mandrel or connected through a hollow shaft

Belt conveyor bevel-helical gear unit

Reliable solutions  
for the metal  
production  
processes

Horizontal parallel rolling mill gearbox

Special bevel gearbox for wire-drawing machine

Customized gearbox for rolling mill

## WIKOV - THE ESSENCE OF ENGINEERING

- Tailored solutions
- Engineering competence
- Gear manufacturing tradition since 1918
- State of the art production technologies
- Cutting edge gear inspection
- Full load testing capability
- Aftermarket services such as repairs, preventative maintenance, inspections and overhauls+
- WiGuard® - remote condition monitoring system
- Gear units up to 130 tonnes
- Solution for both complete new lines and replacement projects

# Wikov Manufacturing Facility

Wikov designs, manufactures, supplies and services a wide range of gear units for metallurgy and steel industry. We offer customized individual solutions which meet your needs entirely and bring you an innovative, efficient and reliable product. Our success is based on experience we gained over our nearly 140-year history, international team of R&D specialists and state of the art production technologies. These main pillars lead to identifying the best solution for you with maximizing functional and economical parameters of your application.

The Essence of Engineering
